# PUBLISHER'S FOREWORD

HIS INDEX has been in mind for twenty-two years. Its inception dates from 1904 when, as honorary secretary of the Enterprise (now City of London) Philatelic Society, I prevailed upon three members (A. C. Constantinides, G. H. Simons, and the late H. W. Westcott) to co-operate with me in an attempt to index the contents of the Society's library. We each undertook to index a separate journal, by means of loose slips, according to a carefully agreed plan. The attempt failed, as all such attempts must fail, owing to the impossibility of obtaining anything like a satisfactory degree of uniformity by this means.

Philatelic Indexing is not so simple as it would seem. It contains so many pitfalls that it would be folly to hope that the present work has avoided them all. In the first place, it involves a library that must be more than ordinarily comprehensive; and that has been gathered together for this purpose. It also demands some experience in discriminating between academic accuracy and practical utility, since to index every shred of information would be to rival the Domesday Book, and incidentally to engulf practical sources of knowledge in a sea of petty references, ninety per cent. of which, so far as they are of any use, have been embodied in the more important monographs and articles.

New Issue Chronicles, and Book Reviews, for example, and journals which contain practically nothing else, after careful consideration have been omitted *in toto*, for this very reason; and also because, so far as reference to them is desired, the period of issue and the indexes to the journals themselves, already provide sufficient guide.

It will be obvious that many handbooks are reprints of, or are based upon, articles by the same, or by other writers; and this involves different degrees of duplication of references which it is impossible to avoid.

The STANDARD INDEX TO PHILATELIC LITERATURE is a natural sequel to the modest Standard Catalogue of Stamp Books, which I published in 1924; and which contained, in addition to titles and authors, essential reference facts such as date of publication, number of pages, size of page, whether illustrated, number of plates (if any), of the majority of available works up to that date. All the information included in the Standard Catalogue, revised and amplified, has been incorporated in the Standard Index. But it has been enormously increased by the addition of the principal contents of a round five hundred volumes of periodicals, as detailed on the following page.

*The Scheme of Arrangement* is strictly alphabetical according to Countries and Colonies. Under each Country or Colony, General References are given first, followed by Special References to particular issues, in the order of Stanley Gibbons' Catalogue. Finally come references to Air Mails, Fiscals, Forgeries, Postal History, Postmarks, Reprints, Stationery, and the like. The letters in brackets refer to the journals according to the Key on page 6; and the figures, to the "whole number" or where this is not indicated on the journal itself, to the *volume* and *part* (not to the page) in which the article appears. This has considerably simplified the work of compilation by minimising detail, while it is found in practice that it does not unduly reduce the facility of reference to bound volumes. When journals are unbound, it is a distinct advantage.

While handbooks published in all countries are included, the journals covered are restricted to those published within the British Empire. We are not unmindful of the importance of the leading journals of the United States of America; nor, for that matter, in other parts of the world. But to have included them would have delayed publication without corresponding benefit, for, outside one or two private libraries, there are no files of them in this country, and they cannot be regarded as generally available to English readers.

For the same reason, British journals which ceased publication over fifty years ago, although admittedly the original source of much that has appeared since, have not been indexed. They now contain little or nothing that has not been rendered obsolete, or has not been re-published. They are, however, covered to the extent to which special indexes to them have been published, whether in journal or handbook form, these indexes having been catalogued herein; and where such indexes, or lists of journals or works, have special reference to particular countries, they will be found mentioned under such countries.

After several previous experiments had been scrapped, work on the present lines was commenced in 1923, and from time to time incomplete portions of it have appeared in the pages of *The Philatelic Magazine*. It was not, however, until April 1925 that I found an enthusiastic collaborator in L. A. J. Baker, who joined my staff at that time, and threw himself wholeheartedly into the task. Upon him has fallen the brunt of the work, and he is fully entitled to share with myself any credit there may be in the production resulting.

The prices given are those at which Harris Publications Ltd. can supply the handbooks and pamphlets, or in the case of articles, the complete journals containing them, subject to stock, post free.

\* \* Vols. i.-vii. are quarto and vols. viii.-xii. are octavo. The numbers of vol. i. differ from the "special edition" of this volume in being printed on white paper and also by the fact that no. 1 is a reprint with a note to this effect at the foot of page 8, the two new paragraphs replacing a description of some "Candian Essays" in the original special edition on yellow paper. The reprint was made in May, 1868, and there is no original no. 1 on white paper. Nos. 9 and 10, 11 and 12, 87 and 88 and 95 and 96 were severally published together under the respective dates "November, 1868," "December, 1868," "August 1 & 15, 1873" and "December 1 & 15, 1873". Each number excepting no. 1 and nos. 73-96 has a paper wrapper, and each volume, excepting vol. vi., has a title-page and an index. Vols. ii.-xii. were published by J. W. Scott and Co. The numbers of vol. vi. were issued weekly and those of vol. vii. fortnightly. There is an extra number consisting of two pages called "No. 27½," dated "March 25, 1870," and a supplement of two pages to no. 57, which is only found in the American edition of this number. Vol. iii. has a frontispiece with coloured illustrations of the United States stamps of 1870. Vol. v. was published at 46 Leadenhall Street, London, E.C., as well as in New York. The wrappers used for the former edition had the subscription price given in English money, many of the advertisements upon them differ from those of the American edition and there are four pages of additional advertisements in each of the nos. 50, 55 and 57, which are not found in the latter edition. The wrappers and advertisements of the English edition were printed by Pardon and Son, London, but the contents were printed in New York and correspond exactly with the New York edition. Nos. 52-60 are stated on the wrappers of both editions to be edited by Alfred Turner, but this is believed to have been a pseudonym for J. W. Scott. On the wrappers of nos. 55-60 of both editions the title reads "The American journal of philately and the stamp collectors' journal"; no doubt referring to an amalgamation with the "Stamp collectors' journal and philatelic opinion" of London. Page 24 of no. 3 has "April 1" in error for "May 1," page 70 of nos. 9 and 10 has "October 1" in error for "November 1," page 84 of nos. 11 and 12 has "November 1" in error for "December 1," page 116 of no. 22 has "Sept. 20" in error for "Oct. 20," pages 44 and 50 of no. 28 have "Mar. 20" in error for "April 20," page 89 of no. 32 has "1670" in error for "1870," pages 9, 11 and 13 of no. 37 have "1870" in error for "1871," page 29 of no. 39 has "1870" in error for "1871," page 42 of no. 40 in some copies, has "April" in error for "April 20," page 44 of no. 40, in some copies, has "April 6" in error for "April 20," pages 117 and 120 of no. 46 in some copies, are printed inverted, the wrapper of no. 99 has in error "98," pages 55, 56, 63 and 64 of no. 112 have "March 20" in error for "April 20," page 60 of no. 124 has "March 20" in error for "April 20," page 106 of no. 127 has "June 20" in error for "July 20," and pages 5 and 7 of no. 145 have "1876" in error for "1878". There is a supplement to no. 45 consisting of a catalogue (8 pp.) of an auction sale of stamps to be held by Geo. A. Leavitt and Co., on October 9th, 1871, the pages of which bear the heading "Supplement—American journal of philately". This catalogue is bound up in the volume lettered: "Stamp auctions 1". Other catalogues of auction sales of stamps by the same firm were presented with nos. 131, 143, 146, 148 and 153 and the pages of each of these are headed "The American journal of philately."

**Errors and Varieties.**—The collector of stamp journals has plenty of varieties and errors to contend with, and while he does not usually collect them as such, it is very necessary to note them to avoid confusion of issues or volumes.

One of the most curious and inexplicable "errors of volume" occurs in the *Australian Philatelist*, a journal which under various ownerships was published from August, 1894, until October, 1924, the last three volumes—28, 29 and 30—being edited by Mr. E. D. E. Van Weenen.

Volumes were indicated in the old-fashioned Roman lettering, and volume XXIX ended with No. 12 dated October 5, 1923. The November and Dec. 1923 issues were correctly inscribed as volume XXX, so were those for January, February and March, 1924. But the last seven issues, April to October, Nos. 6 to 12, all have the volume wrongly inscribed as XXIX, not only on the cover, but on the first editorial page as well. How such an error could pass unnoticed by editor, publisher, post-office and public—for one assumes that it would have been corrected if pointed out—for seven months is one of those mysteries "no fellah can understand." The point for the bibliophile to note is that all 1924 copies inscribed "XXIX" should be altered to "XXX," otherwise he will never complete the last volume of the series!

\* \* The numbers only bear the year of publication. Dr. A. Moschkau in a list of German philatelic literature published in the "Illustrirtes Briefmarken-Journal" of June 1, 1876, gives six numbers of this journal, but there is reason to believe that this was an error and that three only appeared.

EMCO MONTHLY CIRCULAR

English Journal of Philately  
There is an index leaf to Vol I nos 1-15, Sept 14, 1877  
The reprint on nos 3-15 was "Lewis, Reg. No. 43  
Lead in hall Street London"; changed to Lewis, Milne  
No. on 14-16.  
The last two separate nos 17, 18 and 19 were  
on thick toned paper & printed by "Thos. Atkins,  
Bury St Edmunds".  
The supplement leaf in nos 17, 18 transferred the  
rights from J.D. Hamlyn, London to John Williams  
& Co., Liverpool; and p. 15/27 in 1879 has  
J.D. Hamlyn farewell notice as to 1879.

A journal seldom seen to-day is the *English Journal of Philately*, which existed from September 15, 1877, until May 1, 1879. It was launched by John D. Hamlyn, of Holloway, who claimed in "Number One" that "A monthly paper has long been wished for by many dealers, for this country and we believe we are the only country without such a publication." The contents are still interesting, not the least amusing being the candid if ungrammatical comment, regarding an American journal quoted: "The publishers of this paper should be avoided in business transactions, which are anything but honest."

In No. 5 the name of the editor is given for the first time as J. Hulbert, with J. D. Hamlyn as manager. Publication was regular for thirteen months, supported by two or three pages of advertising; but support then fell off. Nos. "14, 15 and 16" appeared as one issue, so did Nos. "17, 18 19" which contained the announcement that the paper had been bought by John Williams & Co., and that the late proprietors had "lost largely ever since the journal has been published." The new owners evidently did not do much better, for a combined No. "20 and 21" dated "From 1st March to 1st May, 1879" was the last of this praiseworthy attempt to establish a monthly stamp journal.

"POSTAGE STAMPS."—A boy in my form one day showed me a collection of from 300 to 400 different postage stamps, English and foreign, and at the same time stated that Sir Rowland Hill told him that at that time there might be about 500 varieties on the whole. This seems a cheap, instructive, and portable museum for young persons to arrange; and yet I have seen no notices of catalogues or specimens for sale, such as there are of coins, eggs, prints, plants, etc., and no articles in periodicals. A cheap facsimile catalogue, with nothing but names of respective states, periods of use, value, etc., would meet with attention. If there be a London shop where stamps or lists of them could be procured, its address would be acceptable to me, and to a score young friends."

Meantime on March 1st, 1879, a new monthly had raised its head under the name of the *Philatelist's Gazette*. This was a 4-page effort by R. Loosley, of Maidenhead. Not until No. 5, did its size expand to 8 pages, and at the same time was taken over by A. J. & W. Ashton, of Forest Gate, who ran it until No. 12, after which Wm. Feldwicke, of Brighton, took it over for the not very convincing reason that Mr. Ashton "with increasing circulation, cannot now devote the time which is necessary." Nor apparently could Mr. Feldwicke, for he only kept it for two numbers before he was "suffering from an indisposition" which caused him to transfer the paper to H. A. Everett, also of Brighton. Anticipating criticism, the editorial of May, 1880, states: "We have no doubt that one or two of the inferior class of stamp papers will seize the opportunity of showing off their blackguardism by making rude remarks on this occurrence."

Mr. Everett increased the size to 12 pages intermittently, improved the contents, and attracted the advertisements of leading dealers of the time, but after 24 numbers had appeared, this journal which had already had four proprietors in two years, came into the possession of a fifth, Messrs. Tozer & Co., who ran it up to No. 37, when it died in May, 1882, after showing much promise, and quite a creditable performance. A.H.H.

## POST CIRCULAR. The Post circular.

*London, Henry Hooper, 1838-39.*

Fol. 14-14½ in. and 8°. 8½ in. Nos. 1-[13]. March 14, 21, 28, Apl. 5, 24, May 4, 11, 25, July 5, 1838, Mar. 28, Apl. 17, 30, June 28, 1839.

\* \* No. 9, which is without year of publication, is octavo and the other numbers are folio. No. 13 is wrongly numbered "No. 14" and nos. 3, 5, 6, 8 and 10 are called double numbers. No. 10 is printed on the back of a large poster with the heading "Petitions for an uniform penny postage lie here for signatures" and nos. 4 and 12 contain illustrations of essays for stamps. There are two copies of no. 1, one dated "March 14, 1838" and the other "March, 1838". The latter has the words "Specimen of" above the title and the contents of pages 3 and 4 are entirely different in the two editions. A second file of the thirteen numbers is bound up in volume lettered "Papers relating to Uniform Penny Postage, 1838-39" (nos. 5-17).

The editor of the "Post circular," Sir Henry Cole, K.C.B., left a collection of papers and essays of stamps connected with the introduction of uniform penny postage to the Victoria and Albert Museum. This collection contains two files of the "Post circular," one of which contains the following additional numbers: a "second edition" of no. 4 dated "April 5, 1838," part of the contents of which differ from the first edition of that number; two editions of no. 7 differing in the make up of the front page, one of which is perhaps an unissued proof copy; and what is evidently a proof copy of no. 12 with the date "April 29, 1839". This file also contains three proof copies of a no. 15, with two pages each and the date "Sept. 27, 1839," the contents of which are differently arranged in each case, a further copy of no. 15 differing in the make up from the other three, but consisting of two pages and dated "Oct. 11, 1839," and a copy of no. 16, which consists of four pages and has the date "Nov. 20, 1839". All the known collections of this paper only contain thirteen numbers and it seems, therefore, doubtful whether the nos. 15 and 16 were ever published or circulated. Mr. W. V. Morten has a copy of the second edition of no. 4 in his collection.

## POST MAGAZINE. The Post magazine: (Published every Saturday). Combining 1st. A magazine of useful information. 2nd. A post label. 3rd. A sheet of letter paper.

*London, Wm. Pateman, 1840.*

8°. 10½ in.

\* \* Each number consists of a sheet of paper for writing a letter upon and one to three leaves of printed matter of a non-philatelic

character. The back of the last leaf of the early numbers contains a rectangular space for the address within an ornamental border with an adhesive one penny, black, Great Britain stamp attached in the right upper corner. The space for the address was so placed that the whole contents of the number could be folded up and sent through the post in the form of a letter-sheet. No. 1 is dated "July 25, 1840". In 1841 the journal was issued without a penny stamp attached, at a half-penny a number and this charge was later on raised to one penny. The last number known is no. 153, dated "October 28, 1843". As specimens of this interesting postal experiment the library contains two different issues without number or date, which are probably imperfect; no. 14, dated "October 24, 1840" and no. 20, dated "December 5, 1840". The two last have the words "Guaranteed weekly supply—Eight thousand," below the title "Post Magazine".

*Mis. St. Jour. 7 (7).*

Each number, commencing with no. 12 has a paper wrapper and there is a title-page and index to each volume. Commencing also with no. 12, the title has a hyphen introduced between the words "Stamp collector's." \* \* Edited by L. Hanciau. Vol. 1. is folio and the remaining volumes are octavo. There are two numbers for December, 1863—"15 Décembre" and "31 Décembre". There is a title-page and a list of contents to each volume with the exception of vol. 1. The last numbers of the year 1900 were issued in advance; number 456, dated "Décembre" being published early in the previous August. There is a "Prix-courant" supplement to nos. 13-24 of LXXXIV. + (2) pages; to nos. 25-36 of LXXXIV. pages; to nos. 37-47 of 48 pages; and to nos. 49-60 of 56 pages; a supplement of (12) pages of illustrations of caricatures, etc., of the Mulready envelope to no 70; a "prix-courant" of 24 pages to the seventeenth year; and two supplements to the twenty-seventh year, the first: a price list of "Timbres-Poste Ruraux de Russie" 4 pages; the other: a price list of "Timbres de Belgique," etc., 8 pages. "Le Timbre fiscal" was given as a supplement to nos. 193-408 and in January, 1897, it was amalgamated with the journal under the title "Le Timbre-poste et le Timbre fiscal," and was continued thus to the last number of December, 1900. The number for June, 1873, is wrongly numbered "125" in place of "126," no. 260 is dated "Juillet" in place of "Août," no. 382 "Septembre" instead of "Octobre," no. 408 "Novembre" in place of "Décembre" and no 449 "Avril" instead of "Mai". Nos. 271 and 272 and nos. 450 and 451 were severally published together under the respective dates "1895, Juillet-Août" and "Juin et Juillet 1900". The twenty-fifth year has a "Numéro Jubilaire" of xxxvi. pages. There are paper wrappers to nos. 284-287, to the "Numéro Jubilaire," and to nos. 371-379. No. 340 and nos. 343-348 are found with the first page of each number headed "Supplément à la Revue Philatélique Suisse". These numbers were so printed for circulation with nos. 4-9 of the "Revue Philatélique Suisse" for the year 1891. Nos. 1 and 2 were reprinted by Ve J. Van Buggengoudt (sic), in 1863, and not by Beauvais as M. Ph. de Bosredon says in his "Bibliographie Timbrologique de la France et de la Belgique," Bruxelles, 1878. Nos. 13 and 14 were reprinted by H. Thiry-Van Buggenhoudt (sic) in 1869 and nos. 15 and 16 by A. Van Buggenhoudt in 1875, and the entire first volume was re-arranged and reprinted with a title-page and a list of contents in octavo size in 1867. The reprints of nos. 1 and 2 and 13-16 differ from the original numbers in the type and the arrangement of some of the articles and certain of the advertisements are entirely different. A copy of the prospectus issued in January, 1897, is bound up in front of no. 409. This was the first philatelic journal published in Belgium.

## APPENDIX B.

### THE PRINCIPAL SOURCES OF INFORMATION FOR PHILATELIC LITERATURE COLLECTORS.

(This list was originally published in the "Journal of the Philatelic Literature Society" of January and April, 1908, but has since been revised and augmented.)

#### I.—SEPARATE WORKS AND ARTICLES.

ALDRICH (E. R.)—See AMERICAN PHILATELIC ASSOCIATION.

AMERICAN PHILATELIC ASSOCIATION—Annual reports of the committee on philatelic literature. In *The American Philatelist and Year Book of the American Philatelic Association*, Vols. XIII.-XXII. 1899-1908.

8°. 10 in.

\* \* A good deal of information is contained in these reports about new publications, especially of journals and works issued in the United States and Canada. The second report, that of 1900, was republished in separate form, and this report contains a valuable list of the philatelic periodicals of Switzerland compiled by William Chenevard, of Geneva. The list has the titles arranged alphabetically and the names of the publishers, place, date and numbers issued are given in each instance. The report of 1903 contains a "Bibliography of Scandinavian Papers". This list, which was compiled by Dr. Otto Rommel, first appeared in *Nordisk Filatelistisk Tidsskrift* for February, 1903, and was afterwards reproduced in condensed form by E. R. Aldrich in the number of *The Philatelic World*, Minneapolis, Minn., for April 15, 1903. A note to the report in *The American Philatelist* states that the list, as there presented, "has been quite fully revised and corrected". The list is divided under the headings: "Denmark—Norway—Sweden—Finland," the titles of the journals are in each instance arranged chronologically, and particulars are given in each case of the name of the publisher and the place, the date and the number of parts issued.

ANDERSON (P. J.)—Notes on early English philatelic literature.

In *The Philatelic Record*, London, Vol. VII., Nos. 76, 77, 79, 80, May, June, August, September, 1885; Vol. VIII., No. 85, February, 1886. *89, 1886 June, p. 92 (early references to the origin of "philately").*

8°. 8½ in.

\* \* These papers trace out the history of the commencement of English philatelic notices and literature, and are further particularly valuable as they contain an account of stamp articles in the English non-philatelic magazines of 1860-1864, in addition to a description of the purely philatelic works published during those years.

— Bibliography of philately. In *Notes and Queries*, London. Eighth series, No. 167, March 9, 1895.

4°. 8½ in.

\* \* A carefully compiled and useful list of works and articles in philatelic journals dealing with philatelic bibliography to the end of 1894.

— Stamp collecting and its literature forty years ago. In *Notes and Queries*, London. Ninth series. No. 240, August 2, 1902.

4°. 8½ in.

\* \* This and the following article may be considered as supplementary papers to those by the same author in *The Philatelic Record* of 1885 and 1886. Like the earlier articles, these two are of an equally interesting description.

ANDERSON (P. J.)—Stamp collecting and its literature. In *Notes and Queries*, London. Tenth series. No. 17, April 23, 1904.

4°. 8½ in.

\* \* A reprint of this was published in *The London Philatelist* for May, 1904.

8°. 8½ in. 29 pp. + (1) p. Coloured paper wrapper.

\* \* This and the following lists by the same author are amongst the most useful works of reference on philatelic journals published in English, as they are so compiled that the collector can cross off each individual part as he obtains it, and sees at once exactly what he has and what he has not got. The lists are all arranged on the same principle. *i.e.* the titles of the journals are grouped under their proper letters of the alphabet, but in each case in chronological order.

— Supplement to the comprehensive check list of philatelic papers and magazines, consisting of two parts. Part one: A list of all known omissions and corrections of all known errors in the original work. \* \* The edition was limited to 100 numbered copies. The work consists of the first separately published edition of the author's check list of Great Britain philatelic journals, and the second edition of his check list of the philatelic journals of the British Colonies. The lists were reprinted from *The Philatelic Inter-Ocean*, Waterloo, Iowa, Vols. viii.-x., January, 1905-February, 1907.

8°. 9 in. pp. 36-57.

\* \* This Report was presented as a supplement to the number of *Vertrauliches Korrespondenz-Blatt philatelistischer Vereine* for November, 1905. The article of Herr König was reprinted in *Der Philatelist*, Dresden, Vol. xxvi., November 1905, and also in the *Deutsche Briefmarken-Zeitung*, Leipzig, Vol. xvi. November and December, 1905. The article gives an excellent review of philatelic literature describing the various works published on colours, essays, reprints, forgeries, watermarks, fiscal and local stamps; an account of the early handbooks and catalogues, and works on postcards and monographs on stamp issuing countries.

8°. 8½ in.

\* \* The works are arranged under the name of the author, or under that of the publisher when no author's name appears, in alphabetical order without regard to the language or country of origin. This is incontestably the simplest and best method for reference purposes, but the usefulness of the catalogue is impaired by its being broken up into no less than five divisions, under the headings: "Première Période (1861-1900.)—Supplément Omissions—Deuxième Période (1901-1908)—Supplément et Omissions (1861-1900)—Supplément et Omissions (1901-1908)."

Wien, 1901.

8°. 9 in. 63 pp. + (1) p. Coloured paper wrapper.

\* \* The edition was limited to one hundred and fifty numbered copies. The work gives an excellent review of the philatelic literature of the world for four decades, the sections being: "1861 bis 1870—1870 bis 1880—1880 bis 1890—1890 bis 1900".

— Die Seltenheiten der philatelistischen Zeitungsliteratur bis Ende 1900. . . .

Wien, [1904].

8°. 9½ in. 12 pp.

\* \* Reprinted from *Der Philatelist*, Dresden. Vols. XXIV., XXV., June, 1903-February, 1904. A very interesting review of the comparative rarity of philatelic journals grouped under the languages: German—French—Italian—Spanish—Portuguese—Dutch—Scandinavian—English. The journals of Great Britain and of the United States are, however, not included in the "English" group.

SUPPANTSCHITSCH (V.)—Die philatelistische Literatur Oesterreich-Ungarns im XIX. Jahrhundert. In *Der Philatelist*, Dresden. Vol. xxx., Nos. 371-374, February-May, 1909. 8°. 9 $\frac{3}{4}$  in.

\* \* An excellent list of the philatelic works and journals published in the Austrian Empire to the end of 1900.

THEBUSSEM (DR.)—See FIGUEROA (M. P. DE)

TIFFANY (J. K.)—The Philatelic library. A catalogue of stamp publications. . . .

St. Louis, Mo., Cambridge, Mass., [printed], 1874.

4°. 10 $\frac{1}{4}$  in. vi. + (4) + 110 + (2) pp. Coloured paper wrapper.

\* \* The edition was limited to one hundred and fifty numbered copies. This was the first published bibliography of philatelic literature in a separate form. The work is divided into three parts: I. Philatelic journals and works. II. Price-lists, circulars, etc. III. Stamp articles in non-philatelic magazines, works on the post office, etc. Part I. is sub-divided into eight divisions under the countries: "American—Danish—Dutch—English—French—German—Italian—Spanish". Part II. includes nine countries: the first eight the same as for Part I., and the addition of "Russian," and Part III. has eight headings: "Articles on stamp collecting—History of postage stamps—History of post office reform—History of the post office—Postal periodicals—Postage stamp games—Postage stamp music—Postage stamp photographs". The usefulness of the work is somewhat impaired by these numerous divisions, by the absence of cross-references and by the insertion of the journals under the name of the publisher instead of under the title. Notwithstanding these defects the work contains much information as regards details of the early publications that is to be found nowhere else, and it remains to this day one of the most valuable sources of information for the philatelic literature collector.

4°. 10 $\frac{1}{4}$  in. 24 + (2) pp. Coloured paper wrapper.

TIFFANY (J. K.)—Addenda to the Stamp Collector's Library Companion. . . .

Chicago, Ill., The Western Philatelic Publishing Co., 1890.

4°. 10 $\frac{1}{4}$  in. 6 + (2) pp.

\* \* Contains a list of corrections to be made in the "Stamp Collector's Library Companion," a table of additional numbers published in 1889 by journals current when the "Companion" was published and a list of new journals issued or announced in the United States during the year 1889.

8°. 10 $\frac{3}{4}$  in.

\* \* The list is divided into two divisions: (1) "Additional numbers issued by journals in existence at time last addendum was published"; (2) "New journals issued in 1890 and 1891".

— Etudes de Bibliographie Timbrologique. In *L'Annonce Timbrologique*, Liège. Vol. iii., No. 24, February, 1892.
